PROFESSIONAL EXPERIENCE

Barry Isett & Associates
Building Code Official

Shannon completed zoning permit reviews and issued zoning and Uniform Construction Code (building) permits.

CodeMaster Inspection Services, Inc.
Vice President of Operations

Shannon managed the day-to-day operations at CodeMaster. She directed overall client development and relationships as well as provided services for zoning and code enforcement in several municipalities, including Lower Nazareth Township, Lower Mount Bethel Township, Bath Borough, Freemansburg Borough, and Slatington Borough. She also assisted municipalities with program administration evaluation and ordinance revisions in East Allen Township, Bath Borough, Freemansburg Borough, and Lower Mount Bethel Township.

City of Allentown, Department of Community and Economic Development
Interim Department Director, Planning Director, Operations Manager

Shannon held several roles with the City of Allentown during her four-year tenure. In those roles, she worked closely with land development submissions, community planning, zoning, code enforcement, building permits, uniform construction code inspections, and state and federal grants. As Planning Director, she reviewed development plans for compliance with City ordinances and the City’s comprehensive plan. She provided direction and support to a community development initiative, called Upside Allentown, in collaboration with over 100 partners, to address the economic and physical challenges in center city Allentown.

Redevelopment Authority of the City of Allentown
Acting Executive Director

As RACA Acting Executive Director, Shannon managed the acquisition, maintenance, rehabilitation, and disposition of blighted properties, including the eminent domain process and the conservatorship process.

Pennsylvania Department of Public Health
Bureau of Public Health Preparedness Director

Shannon directed, coordinated, and assessed public health preparedness policy and actions that secured state and local readiness, interagency collaboration, and the capability to respond to the public health and medical consequences of disasters and emergencies, including the development of operational plans and the implementation of trainings and exercises.
